

# MODERN PLASTICS

(Section 2 and part of regular edition—Vol. 16, No. 1, September 1938)

INDEX TO VOLUME 15

SEPTEMBER—1937 TO AUGUST—1938

MODERN PLASTICS

425 FOURTH AVENUE, NEW YORK, N. Y.

Published in U. S. A. Acceptance under the Act of June 5, 1934, at Easton, Penna. Authorized November 25, 1936

# GENERAL ALPHABETICAL INDEX OF TITLES

ARTICLE	Month	Page	ARTICLE	Month	Page
A molder's organic chemistry of plastics.....	October	10	Phenol-formaldehyde resin as a plywood adhesive.....	March	39
A year's progress in decorative laminated.....	October	288	Phenolic-asbestos for industrial equipment.....	October	35
Acrylic resins.....	October	11	Phenolics in the graphic arts.....	July	30
Announcing Third Annual Modern Plastics Competition.....	May	32	Phenolic resin progress.....	October	32
Applications of alkyd resins.....	October	14	Plastic modes.....		
Architecture in a mechanized world.....	December	25	Equestrian.....	September	28
As a matter of record.....	March	21	Heading south.....	February	28
As the birds see Dayton, Ohio.....	July	36	Headlines for spring.....	March	30
Automatic molding—part 1.....	September	40	Nature studies.....	May	36
Automatic molding—part 2.....	October	206	Summer whimsies.....	July	32
Beryllium copper alloys.....	October	130	Plastic mounts for plated specimens.....	September	48
British Industries Fair.....	May	62	Plastic winners in the All-America Package Competition.....	March	24
British motor cars.....	November	86	Plastics aloft.....	October	302
Candid, indeed.....	April	44	Plastics and the motor car.....	October	300
Care necessary in color molding.....	October	144	Plastics as structural materials for aircraft.....	August	35
Casa Manana by Billy Rose.....	April	32	Plastics at the Rochester A.C.S. meeting.....	September	30
Caslon plastics.....	October	16	Plastics digest.....	September	50
Cast phenolic resins.....	October	17	Plastics digest.....	November	68
Casting resins in rubber molds.....	September	22	Plastics digest.....	December	46
Cellulose acetate in American cars.....	November	58	Plastics digest.....	January	52
Cellulose acetate plastics.....	October	20	Plastics digest.....	February	52
Changes in finishing materials.....	December	33	Plastics digest.....	March	48
Children of France.....	September	34	Plastics digest.....	April	54
Cold molding.....	October	142	Plastics digest.....	May	48
Competition results.....	November	29	Plastics digest.....	June	42
Compression molding.....	October	136	Plastics digest.....	July	44
Coumarone-indene, a thermoplastic resin.....	October	22	Plastics digest.....	August	42
Dentists' cabinet.....	January	42	Plastics from corn.....	December	42
Design dates your product.....	October	122	Plastics: No. 2 refrigerator material.....	September	17
Designed for molding.....	December	24	Plastics Travelcade.....	April	36
Displays that look real.....	March	26	Practical mold design.....	October	124
Displays that survive.....	February	26	Pre-focused lamp in molded case.....	May	34
Dusseldorf exposition.....	February	32	Preheating thermosetting molding materials.....	January	45
Editorial comment.....			Preparation of raw material for molding.....	October	132
What is industrial design?.....	September	26	Presentation dinner.....	December	30
What good is a competition?.....	August	26	Printing, stamping and engraving plastic products.....	October	146
Eight molded parts in this scale assembly.....	April	34	Production & sales of synthetic organic chemicals.....	July	41
Ethylcellulose—a new plastic.....	October	23	Progress through expansion.....	April	27
Evolution of laminated plastics.....	October	280	Radio controls for 1938.....	March	28
Fabricating cast resins.....	October	150	Radio nurse.....	June	24
Finishing a market.....	August	24	Realwood—a laminated plastic.....	April	31
Finishing plastic surfaces.....	October	224	Relationship between mold costs and piece prices.....	February	27
Fish story.....	May	23	Resin bonded plywood.....	October	294
Five years old.....	May	72	Right on the nose.....	June	28
Flexible metal tubing.....	October	216	Rubber-like resins.....	October	36
For better vision—better light.....	December	17	Safety glass.....	January	47
For rapid assembly.....	June	32	Saves leather—saves time.....	February	31
Foreign plastics patents.....	February	56	Science demands accuracy.....	March	27
Foreign plastics patents.....	April	58	Seen in Germany.....	March	36
Foreign plastics patents.....	June	46	Selected bibliography of plastics.....	October	320
Furfural as a chemurgic product.....	October	24	Selecting plastics by properties.....	February	41
Gee, Mom, were they all poor people?.....	March	25	Shellac: a growing factor in industry.....	October	37
Heat for molding plastic materials.....	October	222	Steam from small boilers.....	September	44
Housing midget motors.....	July	27	Study of transparent plastics for use on aircraft.....	November	65
Hydraulic controls.....	October	218	Synthetic resins for the textile industry.....	October	306
Immense expansion of German synthetic resin production.....	December	44	Table and setting.....	February	24
Indirect highway lighting.....	May	28	Tenter rails.....	November	53
Injection molding.....	October	138	The application of laminated plastics to electrical apparatus.....	October	304
Injection molding machines.....	October	208	The beginning—or the end?.....	August	21
Judges of Modern Plastics Third Annual Competition.....	August	27	The fabricating of cellulose plastics.....	October	152
Junior achievement.....	June	26	The impact testing of plastics.....	August	37
Knowing when to redesign.....	September	21	The importance of commercial standards.....	April	64
Laminated conveyor boxes.....	August	52	The modern molding press.....	October	204
Laminated interiors at sea.....	July	28	The new Broadway Limited.....	August	28
Laminated surface design.....	February	38	The origin and mechanism of adhesion in wood plastics.....	July	39
Laminated woven veneer.....	January	38	The properties of an ideal plastic.....	June	39
Let's look at radio cabinets.....	February	21	Thelma E. Beaman, molder.....	February	30
Lignin plastics.....	October	26	Thermoplastic printing type.....	June	36
Longer life gasket.....	June	58	They sell well.....	November	60
Luminous plastics.....	February	66	To see or not to see.....	July	24
Metal inlays that stay put.....	May	30	Toys.....	December	22
Methyl methacrylate resin.....	October	28	Translucent blinds at Jordan's.....	August	32
Mold steel for molded plastics.....	October	128	Transparent phenolic molding materials.....	October	38
Molded furniture from France.....	July	26	Transparent trays.....	September	20
Molding plant equipment.....	October	212	Twentieth Century Limited.....	July	21
Molding with resin blanks.....	October	148	Typical injection molding applications.....	October	310
Molds for phenol resinoids.....	November	63	Unique blood system models prepared with vinyl resins.....	June	56
Molds for phenol resinoids.....	December	38	U. S. plastics patents.....	September	52
Molds for phenol resinoids.....	January	48	U. S. plastics patents.....	November	70
Molds for phenol resinoids.....	February	48	U. S. plastics patents.....	December	48
Molds for phenol resinoids.....	March	44	U. S. plastics patents.....	January	52
Molds for phenol resinoids.....	April	50	U. S. plastics patents.....	February	54
Molds for phenol resinoids.....	May	44	U. S. plastics patents.....	March	50
Natural resins in plastics.....	May	43	U. S. plastics patents.....	April	56
New cameo dispenser.....	May	40	U. S. plastics patents.....	May	50
Nitrocellulose.....	October	30	U. S. plastics patents.....	June	44
Nomenclature.....	October	321	U. S. plastics patents.....	July	46
Noted at Paris exposition.....	January	34	U. S. plastics patents.....	August	44
Off the fire—on the table.....	September	27	Urea resins and molding compounds.....	October	40
Office of Gilbert Rohde.....	September	24	Vinyl resins (including polystyrene).....	October	43
One Plastics Avenue.....	January	27	Visual presentation.....	June	25
Organic plastics—vital industrial raw materials.....	October	5	What is a problem?.....	June	21
Permanence of plastics.....	April	47	Whitby jet reproduced.....	April	33
Permanence of plastics.....	May	46	Why fillers in thermosetting molding materials?.....	October	46
Permanence of plastics.....	June	40	Wings to beauty.....	June	31

✓605 v.15

# ALPHABETICAL INDEX OF INDIVIDUAL SUBJECTS (Continued)

## DESIGN ARTICLES (INDUSTRIAL DESIGN)

	Month	Page
What is industrial design? (Ed.)	September	26
Knowing when to redesign	September	21
Design dates your product	October	122
Gee, Mom, were they all poor people?	March	25
What is a problem?	June	21
Junior achievement	June	26
Cosmetic containers	June	30
Twentieth Century Limited	July	21
The new Broadway Limited	August	28

## DISPLAYS

Ingersoll-Waterbury	September	33
Counter displays	October	18
Counter displays	October	57
Display of Dedon products	December	27
Royson displays of cast resin	February	26
Display stand of Celluloid with glass stands	February	37
Displays with cellulose dummies	March	26
Electric light bulb stand	March	35
Display sign	April	42
Light receptacle	May	66
Western Union display	May	70
Transparent engine housing	June	25
Replica of Wakefield reflector	July	56
Vitalis display	July	58

## DRESSERWARE

(See Toilet Accessories)

## DRILLS

Portable electric drills	February	64
Moto-tool	May	58

## DUST COLLECTORS

Dust collecting equipment	October	244
Falstrom dust collector	July	54
Dust collector for vacuum cleaners	August	64

## ELECTRICAL EQUIPMENT

Switch	September	32
Switch plates, sockets—(stock molds)	September	35
Metering site feed assembly	October	18
Tube bases, etc.	October	25
Radio capacitor frame, distributor head, etc.	October	32
Heater plug	October	49
Fuse holders of Lucite	October	180
The application of laminated plastics to electrical apparatus	October	304
Electrical switch plates, heater plugs and attachment plug caps—stock molds	February	40
Micro-switch for making and breaking circuits	April	42
Bead chains	May	64
Electrical receptacle	May	66
Circuit breaker	May	68
Exposure meter	May	70
Tri-tap	June	72
Radio tube bases and electrical outlet (stock molds)	July	38
Relay box	July	56
Outlet boxes	August	64
Parts of hairwave machine	August	66

## EXHIBITS

Modern Plastics	November	46
Purchasing Agents Exposition	November	76
British Industries Fair	November	78
Chemical Exposition	November	78
Chemical Exposition	December	52
Paris Exposition	January	34
Chemical Exposition	January	58
Dusseldorf Exposition	February	32
Bakelite Exhibit	February	58
N. Y. Lamp Show	February	61
Bakelite Travelcade	March	52
Machine and Tool Progress Exhibition	March	52
National Notion and Novelty Exhibit	March	54
New York Gift Show	March	56
Plastics Travelcade	April	36
British Industries Fair	May	62
International Motor Show	June	25
Franklin Institute	June	50
Bakelite Travelcade	June	50
Bakelite Travelcade	July	50
Modern Plastics	July	50
Plastics Institute, Frankfurt-on-Main, Germany	August	49

## FABRICATING

Fabricating cast resins	October	150
The fabricating of cellulose plastics	October	152
Fabricating cast resin into novelty items	June	26
Fabricating pyroxylin spectacle frames	July	24

## FILM

Acetate film of solid cellulose acetate film	March	21
Pliofilm used as a packaging material	March	54

## FINISHES

	Month	Page
Acrylic resin coatings	October	12
Leather finishes	October	13
Alkyd resin finishes	October	14
Finishes for textile fabrics	October	313
Changes in finishing materials	December	33
Protective coating	June	50
Chrome lacquer	August	48
Spraying flock	August	48

## FINISHING AND POLISHING

Finishing plastic surfaces	October	224
Finishing equipment	October	242
Finishing in G. E. plant	January	84
Finishing in Reynolds plant	April	76
Spraying flock	August	48

## FISHING EQUIPMENT

Fishing reel	December	27
Injection molded fish lures	May	23

## FLASHLIGHTS

Flashlight for use under water	December	27
Prefocused lamp in molded case	May	34
Novelty flashlight	May	68
Industrial flashlight	July	56
Eveready pocket light	July	60

## FURNITURE

Children of France—school furniture	September	34
Modern dressing tables	October	200
Revolite coverings porch furniture, etc.	October	313
Bar top designed by Lescaze	December	27
Furniture of cellulose acetate	January	34
Bar top of Parkwood	January	39
Dining room table and buffet of Formica	February	24
Parkwood screen	May	64
Molded tables and chairs	July	26
Metal and Lucite chair	July	56

## GAMES

Checker and poker chips	October	19
Backgammon men, chessmen, and checkermen	October	195
Chip racks	December	31
Rack and chips	May	66
Molded shuffleboard disks	May	66
Brodi game	May	66
Autobridge board	August	24

## GEARS

Industrial laminated	October	280
Studebaker gear	November	33
Micarta refrigerator gears	May	72

## GLASS

Laminated safety glass	October	12
Glass-like material	October	28
Laminated safety glass	October	106
Optical lenses	November	49
Safety glass	January	47

## HANDLES

Refrigerator handles	October	39
Refrigerator handles	October	40
Cutlery handles—cast resin	October	150
Cold molded stove, coffee pot handles	October	184
Injection molded handles	October	252
Cast resin handle for toothbrush	March	34
Stock mold oven and drawer handles	March	37
Door handle	April	42
Handles from stock molds	April	45
Handles from stock molds	May	42
Trunk handles	May	66
Stock molds	June	37
Luggage handles (stock molds)	July	38
Stock molds	August	34

## HARDWARE

Door knobs and lever handles	January	41
Knob and lever handles—German sugar bowl for restaurant	March	36
Ful-vue mirror	April	42

## HATS

Plastacele hat decorations	November	43
Cellulose film for hats	March	30
Acetate hats and ornaments	July	32

## HOUSEHOLD APPLIANCES

Vacuum	October	34
Sewing machine treadle	October	34
Telephone	October	34
Telephone	October	49

# ALPHABETICAL INDEX OF INDIVIDUAL SUBJECTS (Continued)

## HOUSEHOLD APPLIANCES (Continued)

	Month	Page
Range timers.....	October	88
Vacuum and parts.....	November	40
Humidifier.....	December	27
Chereton cordless iron.....	May	70
Range timer.....	May	70
Radio nurse.....	June	24
Humidifier.....	August	64
Sanitary toilet seat.....	August	66
Stove with plastic strips.....	August	66

## HOUSEHOLD DECORATIONS AND ACCESSORIES

Sewing kits.....	November	182
Servet.....	September	27
Flower vase holders and center piece.....	November	39
Table chef and coffee urn.....	November	41
Servet.....	November	42
Transparent cup and saucer.....	November	50
Kitchen scale, tea kettle and iced rolling pin.....	November	51
Jiggers.....	November	62
Cup and saucer cover.....	January	40
Cast resin polar bear.....	January	41
Cutlery containers.....	March	36
Stock molds—salt and peppers, tumblers, ash trays, jiggers.....	March	38
Hushatone—radio receiver for invalid.....	April	42
Synthetic dogwood flowers.....	May	36
Shade pulls and tie backs from stock molds.....	May	41
Minute minder and condiment set.....	May	64
Cast resin salt and pepper sets.....	May	64
Muddlers.....	May	66
Tableware (stock molds).....	June	38
Tableware (stock molds).....	July	37
Sessions wall clock.....	July	56
Coasters.....	July	58
Kitchen utilities.....	July	60
Venetian blinds.....	August	32
Kitchen and cooking utensils from stock molds.....	August	33
Penwood clock.....	August	66

## HOUSINGS

Molded housings for midget motors.....	July	27
--	------	----

## INDUSTRIAL APPLICATIONS

Clutch body ring.....	November	48
Lamp guard cage.....	November	48
Crystal record reproducer.....	November	49
Battery charger.....	November	49
Tenter rails.....	November	53
Neoprene gasket.....	June	58
Phasector.....	July	56
Laminated conveyor boxes.....	August	52
Petroleum metering equipment.....	August	66

## INLAYS

Metal inlays.....	May	30
-------------------	-----	----

## INTERIORS AND ARCHITECTURE

Offices of Gilbert Rohde.....	September	24
Architecture in a mechanized world.....	December	25
Noted at Paris exposition.....	January	34
McClelland Barclay's apartment.....	February	24
Manila café scene.....	March	34
F. W. Woolworth interior use of Realwood.....	April	30
Casa Manana—night club with Plastacele backdrop.....	April	32

## JEWELRY

Buttons and pins, etc.,—cast resin molded in rubber molds.....	September	23
Fabricated cast resin pins, bracelets, etc.....	September	29
Buttons and buckles.....	October	18
Buttons and buckles.....	October	23
Clips and bracelets.....	October	70
Costume jewelry of Tenite.....	October	182
Costume jewelry cast resin.....	October	194
Cast resin buttons.....	October	196
Cast resin costume jewelry.....	October	198
Injection molded clips.....	October	252
Cast resin novelty costume jewelry.....	November	52
Gamayun jewelry.....	December	27
Barrettes, injection molded.....	December	27
Buttons, bracelet, earrings, belt buckles, etc.....	February	29
Hair ornaments.....	March	30
Buttons at notion show.....	March	54
Whitby jet jewelry reproduced cast resin.....	April	33
Novelty buttons.....	May	68

## KETTLES

Resin kettles and vacuum kettles.....	January	31
---------------------------------------	---------	----

## KNOBS

Carriage knobs and control or drawer knobs (stock molds).....	November	62
Knobs for various uses (stock molds).....	April	45
Knobs from stock molds.....	May	42
Plastic knobs on baby carriage.....	May	70
Stock molds.....	June	37
Stock molds.....	July	38
Stock molds.....	August	34

## LAMINATED

	Month	Page
Plastics No. 2 refrigerator material.....	September	17
Offices of Gilbert Rohde.....	September	24
Translucent flexible urea sheet.....	October	86
Industrial laminated.....	October	280
Decorative laminated.....	October	283
Resin bonded plywood.....	October	294
Application of laminated to electrical equipment.....	October	304
Studebaker gear.....	November	33
Tenter rails.....	November	53
Bar top.....	December	27
Dining room and buffet table.....	February	24
Laminated bathrooms.....	February	38
Laminated pipe ends.....	March	60
Laminated wood—Realwood.....	April	30
Ply cloth for foot corrector and shin guard.....	May	68
Tennis racket handle.....	May	68
Western Union display.....	May	70
Refrigerator gears.....	May	72
Laminated table tops in 20th Century Ltd.....	July	21
Laminated interiors in yacht.....	July	28
Woven glass fabric base for laminated.....	July	50
Application of molded-laminated in Autobridge board.....	August	24
Laminated table tops in Broadway Limited.....	August	29
Plastic venetian blinds.....	August	32
Laminated conveyor boxes (Micarta).....	August	52

## LAMPSHADES

Nail head finish—cellulose acetate shade.....	October	21
Cellulose acetate lampshades.....	October	70
Parkite lampshade.....	January	39

## LATHES

Turning methyl methacrylate on a lathe.....	October	29
Toolroom lathe.....	October	246
Swing lathe.....	February	64

## LIGHTING AND LIGHTING EQUIPMENT

Refrigerator shade.....	September	18
Reflectors.....	October	40
Reflectors.....	October	54
For better vision—better light.....	December	17
Bus light, and desk lamp.....	January	40
In review—Manila café lighting.....	March	34
Royson Plasticraft lamp base.....	March	35
Artificial lighting system at Reynolds plant.....	April	74
Display sign.....	April	42
Reflectors from stock molds.....	April	46
Indirect highway lighting with Lucite reflectors.....	May	28
Tubular bracket.....	June	70
Foglamp shell.....	August	58
Automobile spotlight.....	August	66

## LUMINOUS PLASTICS

Abstract.....	February	66
Luminous escutcheon.....	July	50

## MATERIALS

Casting resins in rubber molds.....	September	22
Acrylic resins.....	October	11
Applications of alkyd resins.....	October	14
Casein plastics.....	October	16
Cast phenolic resins.....	October	17
Cellulose acetate plastics.....	October	20
Coumarone-indene, a thermoplastic resin.....	October	22
Ethylcellulose—a new plastic.....	October	23
Furfural—as a chemurgic product.....	October	24
Lignin plastics.....	October	26
Methyl methacrylate resin.....	October	28
Nitrocellulose.....	October	30
Phenolic resin progress.....	October	32
Phenolic-asbestos for industrial equipment.....	October	35
Rubber-like resins.....	October	36
Shellac: a growing factor in industry.....	October	37
Transparent phenolic molding material.....	October	38
Urea resins and molding compounds.....	October	40
Vinyl resins (including polystyrene).....	October	43
Why fillers in thermosetting molding materials?.....	October	46
Plastics from corn.....	December	42
Bakelite polystyrene.....	December	52
Parkwood—Laminated woven veneer.....	January	38
Luminous plastics.....	February	66
Bakelite announces ureas and acetates.....	March	54
Natural resins in plastics.....	May	43
Properties of ideal plastic.....	June	39
Impregnating resin.....	July	50
Moldable casein.....	August	46

## MODERN PLASTICS COMPETITION

Winners.....	November	31
Honorable mention.....	November	48
Presentation dinner.....	December	30
Announcing Third Annual Modern Plastics Competition.....	May	32
What good is a competition? (Ed.).....	August	26
Judges of the competition.....	August	27

# ALPHABETICAL INDEX OF INDIVIDUAL SUBJECTS (Continued)

MOLDING		Month	Page	PIPING		Month	Page
Automatic molding—part 1.....		September	42	General Electric plant equipment.....		January	76
Compression molding.....		October	136	Reynolds plant equipment.....		April	70
Injection molding.....		October	138	PLANT EQUIPMENT			
Cold molding.....		October	142	Steam from small boilers.....		September	44
Color molding.....		October	144	Molding plant equipment.....		October	212
Molding with resin blanks.....		October	148	Heat, steam, electricity, gas.....		October	222
Automatic molding—part 2.....		October	206	Tumbling barrels, etc.....		October	224
Heat for molding plastic materials.....		October	222	Contour machine.....		November	84
Molding in G. E. plant.....		January	32	Sax stiffness tester.....		November	86
Casting in rubber molds.....		May	56	General Electric's new plant.....		January	27
Injection molding in multi-cylinder presses.....		August	21	Cutting band saw.....		February	64
MOLDS				Multiple boring machine.....		February	64
Rubber molds, casting resins in.....		September	22	Wheelabrator for cleaning small parts.....		February	64
Mold design.....		October	124	Disk sanders.....		March	60
Mold steel for molded plastics.....		October	128	Lenses—safety features.....		March	60
Beryllium copper for molds.....		October	130	Checking instrument for pyrometers.....		March	60
Heating molds, mold cavities, handling molds.....		November	63	Description of Reynolds plant.....		April	27
Flash overflow molds.....		December	38	Die milling machine.....		April	62
Mold making G. E. tool room.....		January	30	Indicator.....		May	58
Flash subcavity molds, flash filler plate molds, flash stripper plate molds.....		January	48	Interval timer.....		May	58
Mold costs and piece prices.....		February	27	Weigh feeder.....		May	58
Truly positive molds.....		February	48	Milling machine.....		June	54
Landed positive molds, semi-positive molds, positive sub-cavity molds, positive split follower molds, positive ring follower molds, positive split-cavity molds, positive floating chase molds.....		March	44	Cutter grinder.....		June	54
Extrusion (transfer) molds, special molds, blowing molds, general design characteristics, the cavity, the chase.....		April	50	Oven.....		June	54
Force and bottom plates, force and bottom plugs, guide pins, mold pins, insert holding pins, hole forming pins, knockout mechanism, inserts, spacer fork.....		May	44	Circular saw.....		June	54
Rubber molds.....		May	56	Counter unit.....		June	54
NOMENCLATURE.....		October	321	Electric etcher.....		June	56
OFFICE EQUIPMENT				Screens.....		June	56
Knowing when to redesign (dental operating lamp)...		September	21	Tester.....		June	56
Communicators.....		October	33	Kurz-Kasch plant.....		July	36
Interoffice communicators.....		October	54	Hardinge milling machine.....		July	54
Typewriter, adding machine keys.....		October	200	PLYWOOD			
Adding machine keys, injection molded.....		October	252	Resin bonded plywood.....		October	294
Western Union teleprinter.....		November	32	Phenol-formaldehyde resin as a plywood adhesive..		March	39
Dental operating lamp.....		November	36	Meyercoed Lumber Co. sheets 6 X 10 ft.....		June	50
Cast resin stapler.....		November	37	POURING SPOUTS			
Transducer microphone.....		December	27	Liquefier head.....		June	72
Numbering machine.....		February	36	Calvert in form of cats, dogs, etc.....		July	58
Date stamper.....		February	37	PREFORMING			
Visioner calendar file.....		February	37	Preparation of raw material for molding.....		October	132
Photographing records on cellulose film for files...		March	21	Molding plant equipment.....		October	212
Filing tray.....		May	64	Preform room with rotary and single punch presses at G. E. plant.....		January	74
Allen adding machine.....		May	66	Pilling room at Reynolds plant.....		April	76
Desk pad.....		May	70	PREHEATING			
Memo pad.....		May	70	Electric oven for preheating sheets.....		October	244
Barrett adding machine.....		June	70	Preheating molding powder.....		November	88
Corona adding machine.....		July	60	Preheating thermosetting molding materials.....		January	45
Cutters for opening cardboard containers.....		August	66	PRESSES			
PAPER WEIGHTS				Automatic molding presses.....		September	42
Dog head molded in rubber mold.....		September	22	Abrasive forming machine.....		September	56
Miniature motor.....		September	33	Preforming press—single punch.....		October	132
PENS				Preforming press—single punch.....		October	170
Injection molded fountain pens.....		October	21	Dual compression preforming press.....		October	170
Desk sets.....		October	150	Preforming presses for light colors.....		October	144
Fount-o-ink.....		November	50	Hydraulic presses for molding.....		October	204
Cast resin pens and bases.....		December	32	Automatic molding presses.....		October	206
Penholder and inkstand—German.....		March	36	Injection molding presses.....		October	208
Inlays on pens.....		May	30	Injection press No. 10 A.....		November	86
Sengbusch pen set.....		May	66	Tilting head press.....		November	86
PERSONAL NOTES AND ARTICLES				Molding press.....		November	88
Thelma E. Beaman, molder.....		February	30	Semi-automatic molding press.....		December	52
Kurz-Kasch plant.....		July	36	Hydraulic press with non-deflecting frames.....		December	54
PHENOL-FORMALDEHYDE				Automatic, injection, preforming and compression presses in G. E. plant.....		January	70
Phenol-formaldehyde resin as a plywood adhesive..		March	39	Automatic press.....		January	58
PHOTOGRAPHIC				Press for molding automotive brake blocks.....		February	64
Light meter, to gage setting, etc.....		September	32	De Mattia injection molding machine.....		March	60
German camera and telescope.....		November	60	Reynolds plant—presses set up.....		April	28
Purma camera.....		December	24	Reed-Prentice 10B injection press.....		May	58
Film developer.....		March	30	Hydraulic Press Mfg. Co.—injection press.....		May	58
Argus camera.....		April	44	Arbor press.....		May	59
Coronet camera.....		May	66	Hydraulic press for matrix and plate making.....		July	31
Developing tank.....		May	68	No. 6 Wasco injection machine—Watson-Stillman..		July	54
Tripod.....		May	70	Multi-cylinder injection presses.....		August	21
Film winder.....		June	70	PRICES			
Filmbook cartridges.....		June	72	Mold costs and piece prices.....		February	27
Developing tray.....		July	60	PRINTING			
Photo electric exposure meter.....		August	66	Roll leaf stamping, anigraphing, engraving.....		October	146
				Thermoplastic printing type.....		June	36
				Phenolic matrices for rubber printing plates.....		July	30
				PUMPS AND VALVES			
				Hydraulic controls.....		October	218
				Hydraulic pump.....		October	238
				Pumps and water system in G. E. plant.....		January	75
				Pumps and valves in Reynolds plant.....		April	72
				Stokes catalog of pumps.....		July	52

# ALPHABETICAL INDEX OF INDIVIDUAL SUBJECTS (Continued)

## PYROMETERS

	Month	Page
Mold pyrometer.....	October	238
Thermo-couple pyrometer.....	October	240
Checking pyrometers.....	October	242
Pyrometers as equipment.....	October	244
Color pyrometer.....	November	84
Pyrometer controller.....	November	86
Pyro micro-optical pyrometer.....	December	54
Treasure chest—potentiometer to check pyrometers.....	March	60
Portable pyrometer.....	August	48

## RADIOS

Beryllium radio grille for Stromberg-Carlson radio.....	September	32
Garod radio—Durez.....	September	33
Pilot radio—Beetle.....	September	33
Dials of Celluloid.....	October	30
Tenite bezel.....	October	72
Emerson radio—Beetle.....	October	84
Sears Roebuck Coronet radio.....	October	102
Majestic radio.....	October	122
Silvertone radio, and Kadette radio.....	October	174
Silvertone radio, and Kadette radio.....	October	176
Radio dial injection molded and Tenite bezel.....	October	180
Parts.....	October	312
Cast resin radio housing. International radio.....	November	38
Sears Roebuck Silvertone radio.....	November	50
Fada radio.....	January	41
Let's look at radio cabinets.....	February	21
Radio controls for 1938.....	March	28
Hushatone—radio receiver for bedridden people.....	April	42
Detrola Pee Wee.....	May	64
Gilfallen radio.....	May	68
Emerson Fiberlon radio.....	May	68
Dunlop radio.....	May	70
Philco radio.....	May	70
Emerson radio.....	June	72
Zenith radio.....	June	72
Clinton radio.....	July	56
Emerson radio.....	July	60

## RAZORS

(See Shaving Equipment)

## REDESIGN

Burton dental operating light.....	September	21
Friez psychrometer.....	March	27
A. P. thermostat.....	June	21

## REFRIGERATORS

Plastics No. 2 refrigerator material.....	September	17
Handles.....	October	39
Handles.....	October	40
Laminated refrigerator gears.....	May	72

## RESIN MANUFACTURE

Manufacture of phenol-formaldehyde.....	January	29
General Plastics to manufacture synthetic phenol from benzol.....	June	50

## RESTAURANT EQUIPMENT

Toothpick dispenser.....	June	72
Molded tables and chairs.....	July	26

## SCALES OR RULES

Molded rule molded on an automatic press.....	March	30
Molded butcher scale housing.....	April	34

## SCREWS

Shakeproof screw.....	November	84
Assembling.....	June	32
Screw with recessed head.....	July	54
Hi-hook thread cutting screw.....	July	54

## SHAVING EQUIPMENT

Enders razor.....	December	27
Blade master sharpener.....	February	36
Cabinet and mirror.....	March	35
Gem shaving set.....	March	35
Zephyr electric razor.....	May	64
Remington Rand shaver.....	June	25
Pro-phy-lac-tic shaving brush.....	June	72
Razorette—woman's razor.....	June	72
Maximax razor blade sharpener.....	August	64

## SHOES

Pyroxylin heels.....	October	30
Cellulose acetate shoe patterns.....	February	31

## SMOKER'S ACCESSORIES

Ash trays, cigaret holders, pipe racks.....	October	198
Cigaret case.....	November	45
Stock molds.....	November	61
Cigaret lighter.....	December	27
Pipe racks, cigaret cases, ash trays.....	December	31
Cigaret lighter—Lektrolite.....	January	40

## SMOKER'S ACCESSORIES (Continued)

	Month	Page
Cigaret cases.....	May	37
Ethylcellulose cigaret box.....	May	64
Helios lighter.....	May	66
Ash tray.....	May	68
Master cigaret holder.....	July	56
Gillette ash tray.....	July	60

## SPECTACLES AND FRAMES

Cellulose acetate spectacle frames.....	October	72
Polaroid goggles.....	January	40
Cellulose sun glasses.....	February	28
Acetate goggles.....	May	64
Xylonite frames.....	July	24

## STATISTICS

Organic plastics—vital industrial raw materials.....	October	5
Exports.....	November	78
Expansion of German production.....	December	44
Production and sales of chemicals, 1937.....	July	41
Census of manufactures.....	July	50

## STEEL

Mold steel for molded plastics.....	October	128
-------------------------------------	---------	-----

## TAPS

Carboloy tap.....	May	59
Outlet.....	June	72

## TESTING

Testing thickness of coating.....	September	48
Stiffness tester.....	November	86
Testing in G. E. plant.....	January	31
Selecting plastics by properties.....	February	41
Permanence of plastics—testing.....	April	47
Permanence of plastics—testing.....	May	46
Permanence of plastics—testing.....	June	40
Impact testing of plastics.....	August	37

## TEXTILE, USE OF PLASTICS IN

Synthetic resins for the textile industry.....	October	306
Tenter rails for finishing cloth.....	November	53

## THERMOSTATS

White thermostat.....	November	35
McCorkie thermostat.....	May	70
A. P. thermostat.....	June	21

## TOILET ACCESSORIES

Cellulose acetate.....	October	21
Cellulose nitrate.....	October	152
Cast resin brush backs.....	October	194
Crystallite comb, brush, etc.....	December	27
Brushcomb o cellulose acetate.....	January	40
Molded comb.....	April	42
Electric tooth brush.....	April	42
Hair brush.....	May	64
Brush and comb.....	June	70
Two way tooth brush.....	July	58
Dresserware.....	July	60
Rotating tooth brush.....	August	64

## TOYS

Injection molded toys.....	October	182
Toys.....	December	22
Toy engine, molded coal car top.....	April	42

## TRANSPARENT HOUSINGS

Remington Rand shaver.....	June	25
Norton door closer model.....	June	25
Wanderer engine.....	June	25

## TRANSPORTATION

Twentieth Century Limited.....	July	21
Yacht interior.....	July	28
The new Broadway Limited.....	August	29

## TRAYS

Molded phenolics.....	September	17
Carved methyl methacrylate.....	September	20
Molded ureas.....	September	27
Methyl methacrylate.....	November	30

## TUBING, FLEXIBLE METAL

Molding plant equipment.....	October	213
Flexible metal tubing.....	October	216
Hose for conveyor steam.....	October	238

## VALVES

(See pumps)

## WOOD

Plastics from wood—lignin.....	October	26
Resin bonded plywood.....	October	294
Adhesion in wood plastics.....	July	39

# INDEX OF AUTHORS

AUTHORS	Month	Page
ADAMS, W. H., JR.	October	35
ANDERSEN, BJORN	October	20
